ADDITIONAL DETAILS

ELEV8 Nature's Energy & Clarity Blend

The Nature's Energy and Clarity Blend in ELEV8 is made from a synergistic mix of holistic herbs and B vitamins. It is loaded with powerful nootropics and other natural stimulants that have been used for centuries in traditional medicine to promote energy, mental clarity, and mood. In modern day practices, these natural substances continue to be used to boost brain performance and focus; create a calm, balanced energy without jitters; improve memory and alertness; and reduce brain fog. In addition, the B vitamin complex in ELEV8 contains vitamins that are often used in combination as a natural mood-booster and to help the body stay energized throughout the day.

ELEV8 Adaptogen Super Blend

At the core of ELEV8 is a powerful adaptogenic formula that blends together medicinal mushrooms and super herbs that have been used in ancient practices for thousands of years to amplify the mind and body. ELEV8's potent super blend is rich in adaptogens, which have the amazing ability help people feel good – even when under stress. Modern research has found that adaptogens can be effective at combating physical and mental fatigue, easing feelings of depression and anxiety, and enhancing cognitive performance and mental work capacity. The protective activity of adaptogens may also help fortify the immune system as well as the body's natural ability to resist the damaging effects of stress.

ELEV8 Whole Food Nutrient Blend

ELEV8's Whole Food Derived Fruit and Vegetable Nutrient Extract Blend is made from real fruits and vegetables with strong health-promoting properties and essential nutrients. The nutrition-rich concentrate is packed with natural organic compounds that are vital for overall health but that unfortunately are often depleted in modern-day diets. Plus, because it is made from real whole foods, the plant-derived vitamins (phytonutrients) in ELEV8 are 100% natural and in their complete form making them much more bioavailable and usable by the body than synthetic vitamin supplements.
